## Description

When we put together ideas, we can create anything. It's like a giant puzzle and our creative team loves figuring out how to do it. Colors are another fun aspect. Clear Lucite is beautiful because it sparkles, but

transparent colored Lucite hold a fascination. It's not so easy as to just drop color into the mix. Our creative team has to play mad scientist, and that is where they shine.

This double casted Lucite award was especially fun to make. It combines all the beautiful aspects of Lucite we love into a simple, but stunning award. Colors and shapes can be changed out to match nearly any design you choose.
