## Description

When YouTube had their 2012 Film Festival, they commissioned this award for the participants.

The base is simple, but the top has a lot going on. The custom cut out angles to create the 3D effect of the words jumping out at you. The words themselves were cut from white acrylic and secured to the red top. Overall, it creates a pop that couldn't be done better if it really was jumping out at you.

## Additional Information
