Description

This molded eagle in flight shaped custom trophy was designed for this client and they just loved it. The Custom molding process we use to form the stone allows for dynamic shapes, such as the eagle with wide

spread wings.

The eagle hovering over a mountain and base make a good combination giving a lot of room for a messaging. Artists created the detail in the stone and added the final gold touches of the name. The customer was awed by the features, stating it was better than they imagined.
